

Howard L. Miller, AIA  
PRINCIPAL ARCHITECT, NCARB, LEED AP

## DESIGN & PRESERVATION SKILLS

Architectural Design & Drawing | Permitting | Computer Modeling & Visualization | Project Management & Site Observation | Recommend & Implement Historic Preservation Standards | Obtain Seattle Landmarks Board Certificates of Approval | Historic Resources Reports on Best Practices for Energy Conservation

## KEY STUDIO TJP ARCHITECTURE PROJECTS

- **Counseling Center, Shoreline (in progress):** Converted residence into offices plus addition, doubling the size of the structure for counseling services. Obtained required conditional use permit.
- **Lewith Home Facilities Expansion, Lake Forest Park (currently being re-evaluated):** Short platting a property to allow development of two additional housing units for disadvantaged women.
- **Freeland Residence, Whidbey Island:** Project architect for a new home focused on energy efficiency, use of solar, and aging in place
- **Magnolia Remodel, Seattle:** A large-scale remodel restoring original finishes, designing an open kitchen, and adding period-appropriate covered deck. Published in *Pacific NW Magazine*, November 2016.
- **Volunteer Park Loveless, Seattle:** Project architect assisting with ongoing maintenance and preservation of historic Tudor home, designed by noted Seattle architect Arthur Loveless.
- **Ambleside Remodel & Addition, Seattle:** Saved and remodeled historic home by Arthur Loveless. Published in the *Seattle Times*, October 2010.
- **Ellsworth Storey Residence, Seattle:** Project architect for phased remodel and addition to historic home. Obtained Certificate of Approval from Seattle Landmarks Preservation Board. Remodeled kitchen, bathrooms, entry and added two decks.
- **Bramble Iron Timber Frame, Freeland, Whidbey Island:** New home developed around a timber frame structure, providing an integral design element throughout the home.
