Senior Associate Architect

Howard is a registered architect working in the field since 1990 on both residential and small commercial projects, and has worked with the Johnson Partnership since 1995.

Architectural Services

- Architectural design and drawing
- Permitting
- Computer modeling and visualization
- Project management, including site observation

Historic Evaluation & Preservation

- Practical experience both recommending and implementing the Secretary of the Interior's Standards for Historic Preservation
- Obtains Certificates of Approval from the Seattle Landmarks Preservation Board
- Prepares historic resources reports focusing on best practices for energy conservation

Recent Projects with The Johnson Partnership

Counseling Center, Shoreline (in progress): Converting an existing residence into offices with an addition doubling the size of the structure for counseling rooms. Obtaining a required conditional use permit.

Lewith Home Facilities Expansion, Lake Forest Park (in progress): Short platting a portion of the property to allow the development of two additional housing units for disadvantaged women.

Magnolia Remodel, Seattle: A whole house remodel restoring original finishes and designing a contemporary open kitchen and adding period-appropriate covered deck. Published in *Pacific NW Magazine*, November 2016.

Volunteer Park Loveless, Seattle: Project architect assisting client with the maintenance and preservation of their historic Tudor home since 2005. We have corrected drainage issues, uneven heating, deteriorating chimneys, a failing porch roof, and numerous other small projects.

Ambleside Remodel and Addition, Seattle: This historic Arthur Loveless home was almost demolished, but we convinced the client we could remodel the residence to meet their needs while retaining the charm and grace of an older home. Published in the *Seattle Times*, October 2010.

Ellsworth Storey Residence, Seattle: Project architect for this phased remodel and addition requiring approval from the Seattle Landmarks Board. We remodeled the kitchen, bathrooms, entry and added two decks.

Stuart/Balcom Queen Anne Landmark, Seattle: Project Architect.

Bramble Iron Timber Frame, Freeland, Whidbey Island: This new home was developed around a timber frame structure, providing an integral design element throughout the home.

Pro Bono Projects

UW Catholic Newman Center, Alter suite design.
Center for Wooden Boats, *Pirate* syndicate.

Howard L. Miller, AIA, NCARB, LEED AP
